Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The Applicants' amendment filed February 15, 2007 is acknowledged.
Claims 1, 11-14, 20-31 and 33 are deleted. Claim 15 is amended. Now, Claims 2-10, 15-19 and 32 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2-6, drawn to a sealing material in combination with an automobile engine cam cover, classified in class 525, subclass 100.
 - II. Claims 7-10, drawn to a sealing material in combination with an automobile engine oil pan, classified in class 525, subclass 106.
 - III. Claims 15-19 and 32, drawn to a sealing material in combination with an automobile wire harness, classified in class 525, subclass 101.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Group I, Group II and Group III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together

Art Unit: 1712

and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, Group I is directed to a sealing material in combination with an automobile **engine cam cover**, Group II is directed to a sealing material in combination with an automobile **engine oil pan**, and Group III is directed to a sealing material in combination with an automobile **wire harness**. Furthermore, the prior Office actions demonstrate that the sealing material alone is **not** patentable. Therefore, the search for prior art in the meaning of either anticipation or **obviousness** regarding the additional features such as engine cam cover, engine oil pan and wire harness would cause serious burden on Examiner.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuo-Liang Peng whose telephone number is (571) 272-1091. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski, can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
